

NOTICE OF APPROVAL OF MODIFICATIONS

Notice is hereby given of the approval of the following modifications to the *EnergySolutions* State-issued Part B Permit. The modifications involved the following changes:

2012-010402: Approval of a Class 2 modification for comprehensive permit changes in conjunction with permit renewal. This modification cleaned up the permit by fixing many typographical errors, clarifying ambiguous requirements and removing redundant conditions. Equipment and processes that are no longer used have been removed (e.g., microencapsulation) and the processes of testing and analysis have been streamlined.

2014-009999: Approval of a Class 1 modification to the Construction QA/QC Manual (CQAM), Attachment II-9. Permit revisions include a provision to allow the run-off berm be breached during final cover construction and a change to the slope of the tie-in for radon barrier in Sump 1A of the Mixed Waste Landfill Cell.

2014-011517: Approval of a Class 1 Modification Request to Attachment II-7, Closure Plan. This modification raises the amount of waste allowed in storage to 7000 cubic yards and allows for the use of native soil, free of debris, as temporary cover on the Mixed Waste Landfill Cell.

Questions regarding these modifications or requests for review of the modification applications and related documents may be directed to *EnergySolutions* or the Utah Division of Solid and Hazardous Waste (UDSHW).

EnergySolutions: *EnergySolutions*, LLC, 423 West 300 South, Suite 200, Salt Lake City, Utah 84101; telephone: (801) 649-2000, contact person: Tim Orton.
